A number of young men in Charleston, S. C., have associated to pay into a common fund $1 per month for each share in the fund held by each, the money eventually to be invested in real estate, which, at the end of ten years, is to be sold, when the proceeds will be divided.

A few months ago a tramp printer walked into the office of the *Sun*, at Socorro, New Mexico, borrowed twenty-five cents, and worked until he had earned $5. With this as capital he started out prospecting, located a claim, two-thirds of which he sold out recently for $30,000.

Richards and Duff worked a triphammer in an iron foundry at Palmyra, Mo. They were fierce enemies, and one of their frequent quarrels led to Richards threatening to put Duff's hand under the hammer. A curious cast iron coffin, made in the shape of a man and carefully sealed, was recently found by persons removing bodies from the Holmead Cemetery, at Washington, D. C. It was unmarked, and no one knows when and by whom it was placed there. The body of a man was found in it, but the remains rapidly turned to dust when exposed to the air.

ROUGH ON CHICAGO.

A reporter of the Chicago *Times* in London tried to teach the Fire Brigade how they do things in Chicago. He says:

I found the man in charge of the steamer a rather communicative individual, who had a store of knowledge about fire matters that was as astonishing as it was ample. When I inquired why the steamers are so small he replied:

"Becos we cawnt get a bigger one to a fire."

"Why not?"

"'Osses cawnt pull a bigger one than this 'ere. An' wots more," this with a ferocious glare at me, "wot ud be the good of 'avin a bigger one than this 'ere?"

Thinking that I had better explain why I was so curious, I ventured to suggest that larger steamers would be more powerful, throw more water and do better execution generally, and than such a change would improve the effectiveness of the brigade."

"Cawnt prove it. It's the first in the world now. It don't need no improvin', is don't."

"Were you ever in Chicago?"

"Shecawgo? Where's that?"

"In the United States. Now if—"

"Oh! I see. You're from the place w'ere they throw the fireman down stairs and shoots the happarawtus hout of a cannon to a fire. We've 'eard of that place before, but we cawnt do anything like that 'ere, you know. We don't know enuf 'ere, we don't. We ain't 'ighly enuf heddicated, we aint. We don't shoot happarawtuses hout of a cannon, we don't." And with a loud guffaw at the imperceptible joke in his remark he turned away and began polishing up the machinery.

Concluding that any effort to enliven him in fire matters would be worse than useless I went back to my former post of observation.

THE BIGGEST CALF.

There is a class of peculiar people we sometimes observe at places of public resort, who endeavor by various means to make themselves remarkably conspicuous, may be in dress, conversation, or general behavior. At a cattle show held in one of our county towns, a country bumpkin, who for some time had been disturbing the company with his loud remarks, at last broke forth: "Prize cattle, indeed! Call these 'ere prize cattle? Why, they ain't nothing to what our folks raised. You mayn't think it, but my father raised the biggest calf of any man round our parts." "Oh," exclaimed a bystander, "we have no doubt of that."—*Chamber's Journal.*

He who can contemplate his past life, and not receive many warnings from it, must have had a remarkably stupid existence.

HOLLOWAY'S PILLS AND OINTMENT.—THE ONWARD MARCH OF TRUTH.—Why is it?—The great doctrine announced some fifty years back by Dr. Holloway, that the stomach, the liver and blood are the founts of disease, is now universally admitted, his greatest opponents having become his staunchest supporters. The reason is obvious; millions who were afflicted with Dyspepsia, liver complaints, Biliousness, Sick Headache, Debility and Physical Prostration, have been radically cured by a thorough course of his famous Pills, while others have been healed of scurvy, old sores, bad legs, scrofulous humors, glandular swellings, tumors, asthma, bronchitis, etc., by his Ointment and Pills, when all other means had failed. Such is the progress of truth and the triumph of reason.

IMPORTANT CAUTION.—None are genuine unless the signature of J. HAYDOCK surrounds each box of Pills and Ointment. Boxes at 25 cents, 62 cents and $1 each.

Which will Remove All Your Doubts—A Good Investment—One that Yields "AN HUNDRED FOLD."

The world is full of charlatans asking public attention to patent inventions for the mitigation of suffering. Everything claiming power to do good should be from a reputable source, otherwise it is open to suspicion. Dr. David Kennedy, of Rondout, N. Y., affirms that his medicine, "Kennedy's Favorite Remedy," is the best article of its kind ever produced. Hence it is only just to the public that he refer to his record as a physician and surgeon. Among the capital operations performed by him are: Amputation of the thigh-bone in the case of Abraham Elsworth, Port Ewen, Ulster Co., N. Y.; amputation of the arm, case of Mrs. Edward Meyers, of Rondout, N. Y., and the operation of lithotomy (removal of stone from bladder), in the case of Simon Tietsell, of Kingston, and the removal of the eye for Oscar Craigg, of Kosendale, Ulster Co., N. Y. These are a few of many. All these persons fully recovered, *because* Dr. Kennedy prescribed "Favorite Remedy" (which has unequaled powers of purifying the Blood). Owing to the use of "Favorite Remedy" in the after-treatment of his surgical cases, not one has died; all are living to this day in the bloom of health. Dr. Kennedy's "Favorite Remedy," for sale by all druggists. $1.00 per bottle.

Bosch's Celebrated Compressed
COFFEE,
used in New York for many years, is ground immediately after roasting and, while in a warm state, secured in packages impervious to air. It is thus preserved uninjured by the atmosphere, and, for a long period, retains unimpaired its full aromatic freshness of flavor.

The Literary Revolution.
Victories are won every day. In January, 1879, "The Literary Revolution" was inaugurated by the publication of one small volume. At present, its list, published and in preparation, comprises nearly 175 volumes of standard books. It gives employment to about 500 hands, and now has facilities for delivering to purchasers over five tons of books a day. To meet the popular demand for the coming twelve months at least 2,000,000 and probably 3,000,000 volumes will be required. The almost wonderful success which the "Revolution" has achieved is, doubtless, to be attributed to its leading principles, which are:
I. Publish only books of real merit.
II. What is worth reading is worth preserving—all books are neatly and strongly bound.
III. Work on the basis of the present cost of making books, which is very much less than it was a few years ago.
IV. Books have commonly been considered luxuries; in a free republic they ought to be considered necessities, and the masses will buy good books by the million if prices are placed within their reach.
V. To make $1 and a friend is better than to make $5 only, and 1000 books sold at a profit of $1 each give a profit of only $1000, while 1,000,000 books sold at a profit of 1 cent each give a profit of $10,000, and it is more pleasure as well as more profit to sell the million.
LIBRARY OF
UNIVERSAL KNOWLEDGE.
Large Type Edition. A verbatim reprint of the last (1880) London edition of Chambers's Encyclopædia, with copious additions (about 15,000 topics) by American editors; the whole combined under one alphabetical arrangement, with such illustrations as are necessary to elucidate the text. Printed from new electrotype plates, brevier type, on superior paper, and bound in fifteen elegant octavo volumes of about 900 pages each. It will contain, complete, about 10 per cent more than Appleton's, and 20 per cent more than Johnson's Cyclopædias, and, though in all respects important to the general reader it is far superior to either of them, its cost is but a fraction of their price. Volumes I. to VII. are ready January 15, 1881, and other volumes will follow, about two each month, till the entire work is completed. Price, set of 15 volumes, in cloth, $15.00; in half Russia, gilt top, $22.50.
Chambers's Encyclopædia.
As a portion of the Library of Universal Knowledge, we issue Chambers's Encyclopædia separately, without the American additions, complete in 15 volumes 16mo. In this style it is printed from new electrotype plates made from very clear nonpareil type. Price, Acme edition, cloth, $7.50; Aldus Edition (finer, heavier paper, wide margins), half Russia, gilt top, $15. In this style it is now complete and being delivered to purchasers.
What is the Verdict?
Anybody can afford to own a cyclopædia now.—*Press*, Ellenville, N. Y.
We can only repeat our hearty commendation of a scheme which places in the hands of the people the best literature at a merely nominal price.—*Traveler*, Boston.
The day of cheap and good books is once more with us, and the American Book Exchange merits the praise for it.—*Episcopal Register*, Philadelphia, Penn.
Has some rich relative left you a colossal fortune which you are spending in publishing books for the people at nominal prices? If so, I admire your taste. But won't the old-line publishers be glad when it is gone!—[illegible], Randolph, N. Y.
At these rates any man may, and every man should, have a library.—*The Alliance*, Chicago, Ill.
Is doing wonders in book-making. A few dollars will purchase a good library. We pronounce them the best books for the money that ever came to our notice.—*The Watchman*, Boston.
It is a matter of wonder how such books, in firm binding with good paper and good type, can be offered at such a price.—*The Standard*, Chicago, Ill.
It is a mystery which we will not attempt to explain how the American Book Exchange can afford to publish such a remarkably cheap series of books. Other publishers may be inclined to sneer at them, but so long as the Exchange publishes a book at one-tenth the cost at which it is offered elsewhere, sneers cannot hurt them.—*Courier Journal*, Louisville, Ky.
We have heretofore given generous notices of this work, because we believe we are doing a favor to our readers in so doing.—*Herald*, Utica, Ohio.
It entirely obliterates the excuse offered by many who really want a good encyclopædia, but are unable to get one of the expensive editions. Quite a number of our readers are subscribers for it, and express themselves highly pleased.—*Times*, Cochranton, Penn.
We know of no publication of recent date that deserves so large a share of public encouragement as this one.—*Sunday Chronicle*, Washington, D. C.
The American Book Exchange is doing a very remarkable work in the reproduction of standard books at absurdly low prices.—*Journal*, Boston.
The character of this marvelously low work is too well known to need much elaboration of its merits.—*Telegraph*, Pittsburgh.
They are well printed and bound. Their form is vastly more convenient than the usual unwieldy quarto or octavo, and their price is cheap beyond all precedent in book-making.—[illegible]
It has been prepared with the greatest diligence and skill, and the literary genius which have been brought upon it makes its longer articles pleasant as well as thoroughly instructive and trustworthy studies. Nothing seems to have been omitted, and especially in the scientific, biographical, and historical articles, everything is brought up to the very latest date. Chambers's, in fact, is the cheapest, the most complete, and in all senses the best encyclopædia.—*Saturday Night*, Cincinnati, 1880.
It has given me great pleasure to recommend your noble enterprise throughout Virginia. Your names will have to stand with those of Howard, Cobden, Nightingale, Morse, Fulton, and Edison, as reformers of the nineteenth century.—R. S. BARRETT, Richmond, Va.
The books are received. I am well pleased with them. Your company is worth more to the common people than the Peabody Fund. It makes me feel good to look at your catalogue. You deserve the praises of all classes of the people.—Z. B. WARNER, Yadkin College, North Carolina.
Thousands of blessings on the man who invented printing, thousands more for him who uses it at invention for the benefit of his fellow-countrymen. The books which I have received from you are wonderful volumes for the money.—D. B. CONKLING, Pastor Congregational Church, Whitewater, Wis.
